10 YEAR LIMITED WARRANTY

PHI2.6™ | PHI3.4™

10 YEAR LIMITED WARRANTY: PHI2.6™, PHI3.4™

LIMITED PRO-RATED WARRANTY COVERAGE

The SimpliPhi Power PHI2.6™ and PHI3.4™ Smart-Tech Battery (the “SimpliPhi Product”) as supplied and distributed by SimpliPhi Power, Inc., a Delaware corporation, is warranted (the “Limited Warranty”) by SimpliPhi Power, Inc. against manufacturing defects in materials and workmanship for a period of ten (10) years (the “Limited Warranty Period”) or for 10,000 cycles on a prorated basis, whichever comes first, when installed and operated within the SimpliPhi Guide for Operating Parameters (page 3).

The term of this Limited Warranty (i) begins on the original date of purchase of the SimpliPhi Product as indicated on the Limited Warranty Registration Card submitted to SimpliPhi Power and (ii) continues through the Limited Warranty Period. This Limited Warranty applies only to the original end-use purchaser of the SimpliPhi Power Product and is transferable only if the SimpliPhi Power Product remains installed in the Original Use Location. SimpliPhi Power does not warrant or guarantee workmanship performed by any person or firm installing the SimpliPhi Power Product. This Limited Warranty does not cover the cost of installation, removal, shipping or reinstallation. This limited Warranty does not cover faults in design or installer error such as reverse polarity or misuse of system wide equipment or inaccurate programming of all ancillary equipment in your system.

This Limited Warranty applies only to a SimpliPhi Power Product (a) purchased from SimpliPhi Power Inc. or an authorized SimpliPhi Power distributor, dealer or reseller and (b) installed by a licensed professional. In the event you rent or lease the SimpliPhi Power Product, no end-user purchase takes place; therefore, this Limited Warranty does not apply and you must contact your rental or leasing company to determine whether Warranty coverage is applicable.

The liability of SimpliPhi Power under this Limited Warranty shall be limited to the repair or replacement of the SimpliPhi Power Product, at SimpliPhi Power’s sole discretion. If the SimpliPhi Power Product is found to be defective as a result of any manufacturing defect in materials and workmanship during the Limited Warranty Period, SimpliPhi Power will, at its sole discretion either (i) repair the SimpliPhi Power Product or (ii) replace the SimpliPhi Power Product. If a SimpliPhi Power Product is replaced, that SimpliPhi Power Product will become the property of SimpliPhi Power and must be returned to SimpliPhi Power free of any third-party ownership claims. The Warranty period of any repaired SimpliPhi Power Product or its replacement is twelve (12) months from the date of shipment from SimpliPhi Power, or the remaining term of the Limited Warranty Period, whichever is greater.

IMPORTANT NOTE: Circuit Breakers, Disconnects and Fuses should be employed throughout several points of a Power storage and generation installation to effectively isolate and protect all components of the system to safeguard against faults, short circuits, polarity reversals or a failure of any component in the overall system. Fuses, breakers, wire

ratings and values should be determined by established standards and evaluated by certified electricians, licensed installers, and regional code authorities. Although each PHI Smart-Tech Battery contains both an 80 Amp circuit breaker and an internal BMS with circuitry that protects the Lithium Ferrous Phosphate cells from overcharge, over-discharge and excessive load amperage, the PHI Smart-Tech Batteries must always be installed with a charge controller and the appropriate settings to protect the PHI from open PV voltage and other high voltage charging sources. The PHI Smart-Tech Battery Management System (BMS) and internal circuit breaker alone will not protect the PHI batteries from these extreme electrical phenomena. Failure to adhere to installation protocol will void the Warranty.

CAUTION: Verify polarity at all connections with a standard volt meter before 1.) energizing the system and 2.) turning the PHI 80 Amp breaker “ON/OFF” switch to the “ON” position. Reverse polarity at the battery terminals will void the Warranty and destroy the batteries.

Only use a SimpliPhi approved LFP charger if ancillary charging is required before installation, testing or troubleshooting. Failure to use a SimpliPhi approved LFP charger will damage the battery and void the warranty.

CAUTION: Charging LFP batteries at temperatures below freezing. Do not attempt to charge the battery below 32 F (0 degrees C). Attempts to charge at subfreezing temperatures can adversely affect SOH and cycle life, and will void the Warranty.

If the battery must be charged below 32 F (0 degrees C), the rate of charge must be at no more than 5% of the battery’s rated capacity (C/20).

SimpliPhi Power GUIDE FOR OPERATING PARAMETERS

OBTAINING WARRANTY SERVICE

In order to activate this Limited Warranty, the attached Limited Warranty Registration Form must be completed and forwarded to SimpliPhi Power pursuant to the instructions set forth in the Limited Warranty Registration Form. This Limited Warranty applies only to the SimpliPhi Power Product that is (i) registered on the Limited Warranty Registration Form attached to this Limited Warranty and (ii) installed in the Original Use location which shall be described by inserting the address of the Original Use Location in the space “Address of Installation” provided in the Limited Warranty Registration Form and name of installer/distributor or supplier.

To request warranty service, your installer/distributor/supplier must contact SimpliPhi Power in writing within the Limited Warranty Period. Either SimpliPhi Power or its authorized representative will attempt to troubleshoot the SimpliPhi Power Product at the Original Use Location in order to determine whether the SimpliPhi Power Product is defective. If SimpliPhi Power determines that warranty service is required, SimpliPhi Power will issue a Return Material Authorization (“RMA”) number. A request by you for an RMA number requires that you provide in writing to SimpliPhi Power all of the following information:

- The SimpliPhi Power Product model number and serial number;
- Description of the problem; and
- Shipping address for the repaired or replaced equipment.

After receiving the RMA number, you must pack the SimpliPhi Power Product authorized for return, along with the information described above, in the original SimpliPhi Power Product shipping container or packaging providing equivalent protection with the RMA number marked clearly on the shipping container(s). You must prepay all shipping charges covering shipment to the location designated by SimpliPhi Power, and you must insure the shipment, or accept the risk of loss or damage during shipment. SimpliPhi Power is not responsible for shipping damage caused by an improperly packaged SimpliPhi Power Product, the repairs this damage might require, or the cost of these repairs.

If, upon receipt of the SimpliPhi Power Product, SimpliPhi Power determines the SimpliPhi Power Product is defective and that the defect is covered under the terms of this Limited Warranty, SimpliPhi Power will then and only then ship a replacement SimpliPhi Power Product to you (subject to receipt of pro-rated payment, where applicable), freight prepaid, non-expedited, using a carrier of SimpliPhi Power’s choice for shipment.
